

OTO IMAGING

2ND COURSE ON IMAGING IN OTOLOGY

AND HEARING IMPLANTS

1-2-3 October 2018

Hotel Is Morus

Santa Margherita di Pula (Ca)

Cari colleghi e collaboratori coinvolti nel campo della chirurgia dell'orecchio e degli Impianti uditivi, vorremmo invitarvi al "2nd Course on Imaging in Otolaryngology and Hearing Implants" che vuole fornire gli strumenti per meglio comprendere gli studi di Imaging ai medici che sono coinvolti nel trattamento della patologia dell'osso temporale con particolare attenzione all'applicazione di protesi uditive nel trattamento della sordità.

Il corso è suddiviso in quattro sessioni:
Otiti croniche, Tumori dell'osso temporale e Dell'Agolo Ponto-Cerebellare, Malformazioni e Imaging relativi agli impianti uditivi.

Dear colleagues and co-workers involved in the field of ear surgery and implants, we'd like to invite you to this course that wants to provide the tools to better understand the temporal bone imaging studies to the clinicians that are involved in the treatment of ear pathology with a special attention to the Imaging related to the application of ear implants in the treatment of deafness.

**The course is divided in four sessions:
Chronic ear, Temporal bone and CPA tumors, Malformations and Imaging related to hearing Implants.**
